illiteracy
beginning reading
reading skills
teaching techniques
reading research

17. ABSTRACT (MAX. 250 WORDS)

Pictures of four nouns are introduced: man, woman, cat, and dog. The next sequence of pages teaches word recognition through configuration. A geometric form in the shape of the word is linked with the word itself, followed by a picture-word discrimination for each of the four nouns. The word is compared and contrasted to pictures. The series then ends with the student's reading the isolated word.
